

## Plus +

### Testing Capabilities

We have testing capabilities that simulate a production environment, ensuring repairs are completed efficiently and effectively. We currently have the ability to test numerous products of various brands and we are committed to the expansion of this service.

### Exchange Program

Our exchange program offers an expedient method of having your production equipment functioning within the quickest possible time. Our program applies to all brands we carry in our stock.

### Rush Repair

We understand the costs associated with component failure on production equipment. With this in mind, we offer a **rush** repair service designed to reduce down time.

### Customer Service

You can count on JF Automation any time. We take pride in providing quality and efficient service to all of our customers.

## Services

### Design & Integration

JF Automation has the capacity to provide innovative solutions to the electronic design of automated systems.

### Repair

Our highly skilled technicians are experienced in handling a wide range of components with a diversified OEM base. Components such as servo drives, servo motors, electronic circuit boards, power supplies and monitors are included in our scope of repair services.

### Retrofitting and Upgrading

We also specialize in retrofitting and upgrading of CNC machine tools.

### Panel Building

Utilizing a solid combination of design and engineering principles, we have the resources and experience to be your total system integrator

### On-Site

Our service engineers provide on-site troubleshooting, programming and repair services for Siemens controlled machine tools.

**JF** Automation Inc.

### Our Company

JF Automation was established in Mississauga, Ontario in 2003, to service the automation industry. Since then we have expanded to offer our services in the U.S and Internationally. We have over the years grown to control one of the largest inventories of Siemens products in Southern Ontario. As well, with the diversity of our capabilities, we have obtained a strong presence of most major brands within our inventories.

### Our Mission

To be the leader in the market we serve through innovation and enhancement of customer productivity with systems design, repair and service solutions
